## Quotation to Develop School Management System

Prepared By  
**Musadiq Mustafa**  
Pakistan  
3/5/2023

## **Project Objective**

### **Need Assessment**

The aim of this venture is to design & development of a web application that will serve as a platform that will be utilized to assist teachers and students and to manage the school digitally

### **Scope of Services**

- The system can cater to multiple educational institutions such as schools, colleges, and universities.
- The system can handle various administrative tasks such as managing student records, attendance, grades, and fees.
- The system can facilitate communication between teachers, students, and parents through messaging and announcements.
- The system can provide online access to educational resources such as textbooks, class notes, and assignments.
- The system can generate reports and analytics to help teachers and administrators evaluate student progress and improve teaching methodologies.

# Project Objective

---

## Feature List

- Student/Teacher Login
- Student management
- Teacher management
- Attendance management
- Option to and create conduct quizzes
- Timetable management
- Chat option
- Feedback Sharing

## Mega Features List

- Result generation
- Students analytics
- Fees management
- Option to upload presentations and assignment

# Project Deliverables and Milestones

---

## Deliverables

The deliverables for this part of project only include

- Web Application

## Special Requirement

The system will be created using the client desktop on any desk to which he has requested a daily commitment of three hours, for which he will be charged an hourly rate.

## Important

Additional feature requests and design will be billed for separately.

Delay from client end for providing content, required information, conveying decision on submitted items, and/or any other item(s) needed to further proceed with the project development, may lead to delay the project completion time.

## Financials

---

### Project Cost

All costs are based on understanding of the information delivered by the client representative, and have been determined keeping the complexity of work and required efficiency and quality. While we are reasonable confident that this quote represents most of the requirements, we reserve the right to re-evaluate the cost structure should the requirements of the project change.

Description	Cost
School Management System	
Deployment	
	Total

## **Payment Terms**

EsolaceTech reserves rights to stop work in case of payment not being made by client in timely manner. The project schedule will be adjusted accordingly which may increase in number of days and hours.

The given cost does not include the charges of monthly maintenance, whereas maintenance contract will be signed separately after the successful implementation and delivery of the project.

## **Conclusion**

We are looking forward to provide you exceptional services and perfectly optimized solution for your needs. Prices are valid for 30 days from the date of this proposal. If you have any question please feel free to reach out to us. For a complete set of services that we offer please check our website at [www.esolacetechnology.com](http://www.esolacetechnology.com)
